AEFFE GROUP

INTERIM MANAGEMENT REPORT

1. SUMMARY OF THE GROUP'S KEY ACTIVITIES

Aeffe Group operates worldwide in the fashion and luxury goods sector and is active in the design, production and distribution of a wide range of products that includes prêt-a-porter, footwear and leather goods. The Group develops, produces and distributes, with a constant focus on the qualities of uniqueness and exclusivity, its own collections both under its own-label brands, including "Alberta Ferretti", "Philosophy di Lorenzo Serafini", "Moschino" and "Pollini", and under licensed brands. The Group has also licensed to key partners the production and distribution of other accessories and products with which it supplements its product range (perfumes, sunglasses and other).

The Group's business is divided, based on the various product lines and brands it sells, into two segments: (i) prêt-a-porter (which includes prêt-a-porter lines, lingerie and swimwear); and (ii) footwear and leather goods.

Prêt-a-porter Division

The Prêt-a-porter Division, which is mainly composed by the company Aeffe, is mainly involved in the design, production and distribution of luxury prêt-a-porter garments and lingerie, beachwear and loungewear.

In terms of the prêt-a-porter collections, the activity is carried out by Aeffe, both for the production of the Group's proprietary brands ("Alberta Ferretti", "Philosophy di Lorenzo Serafini", "Moschino", "Boutique Moschino" and "Love Moschino") and brands licensed from other companies. Aeffe also handles the distribution of all Division products both through the retail channel (via subsidiaries) and through the wholesale channel.

Furthermore Aeffe manufactures and distributes lingerie and swimwear collections, and specifically men's/women's lingerie, underwear, beachwear and loungewear. Collections are produced and distributed under the Group's proprietary brands, such as "Moschino", and under third-party licensed brands.

The Prêt-a-porter Division also manages licensing agreements granted to other companies to manufacture Aeffe and Moschino branded product lines such as the Moschino brand licensing agreement relating to the Love line, "Moschino" branded perfumes and sunglasses.

Aeffe

Aeffe is the brainchild of designer Alberta Ferretti, who set up her own business in 1972. The history of the parent company has developed in parallel with that of its founder, whose personal involvement in fashion has been a key factor in Aeffe's development.

The growth of the parent company as an industrial and creative entity has been distinguished from the start by a multi-brand approach, with Aeffe producing and distributing the prêt-a-porter collections of leading fashion houses utilising the know-how acquired in the production of luxury prêt-a-porter lines.

This provides the context for the partnership between Aeffe and designer Franco Moschino, whose brand "Moschino Couture!" it has produced and distributed under an exclusive licence since 1983.

Moschino was founded in 1983 and grew during the 1990s to become an internationally renowned brand. Following the disappearance in 1994 of its founder, Franco Moschino, his family, staff and friends have kept the designer's legacy alive, respecting his creative identity and philosophy. Rossella Jardini, who has worked for Franco Moschino since 1981, succeeded him as artistic director and becoming in charge of brand image and styling. The company provides design, marketing and agency services from the Milan showroom for Moschino collections in Italy and overseas

Between 1995 and 2013, Aeffe worked with designer Jean Paul Gaultier producing and distributing the women prêt-à-porter collections branded "Jean Paul Gaultier".

In 2001, Aeffe gained control of Pollini, an established manufacturer of footwear and leather goods. This allowed Aeffe to supplement the collections produced in-house with an accessories line.

In 2002, Aeffe took over Velmar, a firm that had collaborated with Aeffe for some time on the production and distribution of lingerie, beachwear and loungewear lines.

In 2007 Aeffe is quoted on the Euronext Star Segment of Euronext Milan Market of Borsa Italiana.

In 2021 Aeffe SpA. took over from Sinv Holding S.p.A., Sinv Real Estate S.p.A. and Sinv Lab S.r.l., the minority stake of 30% of Moschino S.p.A., thus coming to own the entire capital.

In 2022 the 100% subsidiary Velmar S.p.A. is merged by incorporation into Aeffe S.p.A..

In 2023 the 100% subsidiaries Moschio S.p.A. and Aeffe Retail S.p.A. are merged by incorporation into Aeffe S.p.A.. Following the mergers of the Italian companies, the process of rationalization and reorganization of the foreign subsidiaries in France, the United Kingdom and the United States was also completed.

The footwear and leather goods division also manages licensing agreements granted to other companies to manufacture "Pollini" products such as umbrellas, scarves and ties.

Pollini

Pollini was established in 1953 in the shoemaking district of San Mauro Pascoli, following in the Italian tradition of handmade leather goods and shoes. Italy is a leading producer of footwear: due to expertise required to make these products, nearly all production sites are located in areas with a long-standing shoemaking tradition, such as San Mauro Pascoli, Vigevano and Strà (PD). The company's philosophy is focused on promoting Pollini in other countries as an amalgam of traditional quality and Italian style, offering a range of products that include shoes, bags and matching accessories.

Between 1957 and 1961, Pollini produced the footwear collections of the designer Bruno Magli.

In the 1960s and early 1970s, Pollini began making shoes under its own label, presenting "themed" collections (such as the "Daytona" sports footwear collection, inspired by the world of motorbike racing).

In the 1970s, Pollini rose to international fame: at that point, its collections were shown in Düsseldorf, Paris and New York, as well as in Milan and Bologna. Around the same time, the first stores opened in Milan, Verona, Varese and Venice.

In 1989, Pollini moved into its new office in Gatteo, in the Italian province of Forlì-Cesena. The new site measures 50,000 sq. m., just over a third of it indoor, with a production workshop and seven-storey building housing the showroom and offices. The new site brought the footwear and leather goods divisions and sales and administration offices under one roof.

In 2001, Aeffe and Pollini reached an agreement whereby Aeffe would acquire a controlling stake in Pollini. The acquisition was a natural progression of the increasingly concentrated partnership between the two companies, enabling the growth of the footwear and leather goods lines designed by Alberta Ferretti.

Always in 2008, Pollini has entered into new license agreements with Drops S.r.l., for the manufacturing of umbrellas, as well as Larioseta S.p.A., for the manufacturing and distribution of neckwear, including women's shawls, women's and

men's scarves and ties. In 2011 Aeffe S.p.A. has acquired the remaining 28% shareholding of Pollini S.p.A., becoming the sole shareholder.

4. RESEARCH & DEVELOPMENT ACTIVITIES

Considering the particular nature of the Group's products, research & development activities consist in the continual technical/stylistic renewal of models and the constant improvement of the materials employed in production. Such costs were charged in full to the Income Statement.

5. TRANSACTIONS BETWEEN GROUP COMPANIES AND WITH RELATED PARTIES

During the period, there were no transactions with related parties, including intragroup transactions, which qualified as unusual or atypical. Any related party transactions formed part of the normal business activities of companies in the Group. On 26 March 2024, the Board of Directors of Aeffe Spa announced that the incremental option was exercised by Altana Società Benefit S.r.l. (Altana) for the purchase of a further 15% of the capital of the company Moschino Kids S.r.l., as provided for in the agreement establishing the company signed in September 2022. The company Moschino Kids is therefore, to date, owned by Aeffe and Altana, with a share of 55% and 45% respectively.

7. SIGNIFICANT EVENTS SUBSEQUENT TO THE BALANCE SHEET DATE

No significant events occurred after the balance sheet date.

8. RISKS, UNCERTAINTIES AND PROSPECTIVES FOR THE REMAINING SIX MONTHS OF THE YEAR

The unsatisfactory results of the first half of the year are the reflection of an extremely complex market situation. The slowdown in consumption in key countries for us, such as Italy and the United States, has significantly impacted our group performance. Aware of the complexity of the moment we are experiencing, we are equipping ourselves to face the complex situation and we are confident that we will see a recovery of consumer interest in fashion goods in the short term. We are satisfied with the new stylistic course of the Moschino brand, which will allow us to reposition the brand with a new international appeal.

Companies are consolidated using the line-by-line method. The principles adopted for the application of this method are essentially as follows:

- the book value of equity investments held by the Parent Company or other consolidated companies is written-off against the corresponding net equity at June 30, 2024 in relation to assumption of the assets and liabilities of the subsidiaries;
- the difference between historical cost and fair value of the net equity of shareholdings on the acquisition date is allocated as much as possible to the assets and liabilities of the shareholdings. The remainder is allocated to goodwill. In accordance with the transitional provisions of IFRS 3, the Group, in case it was present, has ceased to depreciate goodwill, instead subjecting it to impairment tests;
- significant transactions between consolidated companies are written-off, as are receivables and payables and earnings not yet realised from third parties arising from transactions between Group companies, excluding any tax effect;
- minority interests in shareholders' equity and net profit are reported in the relevant items of the consolidated balance sheet and income statement;
- companies acquired during the period are consolidated from the date on which majority control was achieved.

Subsidiaries

Subsidiaries are enterprises controlled by the Company. Control is the power to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are consolidated from the date on which the Group acquires control and until the date when such control ceases.

The acquisition of subsidiaries is accounted for using the acquisition method. Acquisition cost is determined by adding together the fair values of the assets transferred, the shares issued and the liabilities assumed on the acquisition date, plus the costs directly associated with the acquisition. Any surplus acquisition cost over the Group's percentage share of the fair value of the identifiable assets, liabilities and contingent liabilities of the associate is recognised as goodwill.

If the Group's percentage share of the fair value of the identifiable assets, liabilities and contingent liabilities of the associate exceeds acquisition cost, the difference is immediately recorded in the income statement.

Intercompany balances, transactions, revenue and costs are eliminated in the consolidated statements.

Furthermore, intercompany business combinations are recognised by maintaining the same book value of assets and liabilities as previously recorded in the consolidated financial statements.

Associates

An associate is an enterprise in which the Group has significant influence, but has neither sole or joint control, by taking part in decisions regarding the company's financial and operating strategy.

Trading results and the assets and liabilities of associates are accounted for in the consolidated financial statements based on the equity method, except where they are classified as held for sale.

According to this method, equity interests in associates are recorded in the balance sheet at cost, adjusted to take account of changes following the acquisition of their net assets, excluding any loss in value of individual investments. Losses of associates that exceed the Group's percentage interest in them (including long-term receivables that essentially form part of the Group's net investment in the associate) are not recognised unless the Group has an obligation to cover them. The surplus acquisition cost over the parent's percentage share of the present value of the identifiable assets, liabilities and contingent liabilities of the associate on the acquisition date is recognised as goodwill. Goodwill is included in the carrying amount of the investment and is subjected to impairment tests. The historical cost deficit compared with the Group's percentage share of the fair value of the identifiable assets, liabilities and contingent liabilities of associates on the acquisition date is credited to the income statement in the year of acquisition. With reference to operations between a Group company and an associate, unrealised gains and losses are eliminated in equal measure to the Group's percentage interest in the associate, except for cases where the unrealised losses constitute evidence of impairment of the asset transferred.

FOREIGN CURRENCIES

Functional and reporting currency

The amounts in the financial statements of each Group enterprise are measured using the operating currency or the currency of the economic area in which the enterprise operates. These consolidated financial statements are presented in euro, which is the operating and reporting currency of the Parent Company.

Foreign currency transactions

Foreign currency transactions are converted into the operating currency at the exchange rate in force on the transaction date. Cash assets and liabilities denominated in foreign currencies are converted at the exchange rate in force on the balance sheet date. Any exchange rate differences arising from the elimination of these transactions or from the conversion of cash assets and liabilities are posted to the income statement. Non-cash assets and liabilities in foreign currencies that are measured at fair value are converted at the exchange rates in force on the date on which the fair value was determined.

Financial statements of foreign companies

The financial statements of companies outside the euro-zone are translated into euro based on the following procedures:

- (i) assets and liabilities, including goodwill and fair value adjustments arising from consolidation are converted at the exchange rate in force on the balance sheet date;
- (ii) revenue and costs are converted at the average rate for the period, which must be close to the exchange rate in force on the transaction date;
- (iii) exchange rate differences are recognised in a separate account in shareholders' equity. When a foreign company is sold, the total amount of accumulated exchange rate differences relating to that company are recorded in the income statement.

The exchange rates used for the conversion into euro of the financial and equity statements of companies included in the scope of consolidation are listed in the following table:

FINANCIAL STATEMENT FORMATS

As part of the options available under IAS 1 for the preparation of its economic and financial position, The Group has elected to adopt a balance sheet format that distinguishes between current and non-current assets and liabilities, and an income statement that classifies costs by type of expenditure, since this is deemed to reflect more closely its business activities. The cash flow statement is presented using the "indirect" format.

With reference to Consob Resolution n. 15519 dated July 27, 2006 regarding the format of the financial statements, additional schedules have also been presented for the income statement, the statement of financial position and the statement of cash flows in order to identify any significant transactions with related parties. This has been done to avoid any compromising the overall legibility of the main financial statements.

ACCOUNTING POLICIES

The accounting policies adopted in the preparation of this half-year financial report are the same used as those used in the preparation of the consolidated financial statement as of December 31, 2023, except for the following interpretations and amendments to the accounting principles that have been mandatory since January 1, 2024.

Directors' assessment of the going concern assumption

The Directors are responsible for assessing the capacity of the Group to pursue operating activities and, in preparing the consolidated financial statements, the appropriateness of applying the going concern principle, in addition to the provision of adequate disclosure. The Directors apply the going concern principle in preparing the consolidated financial statements unless they have assessed that the conditions for the winding up of the parent company Aeffe S.p.A. or for the interruption of operations exist or that they have no realistic alternatives to these options.

Starting from these results, the Directors have prepared the financial statements as at June 30, 2024 according to the principle of business continuity considering the uncertainties linked to the reference market and macroeconomic situation and on the basis of the strategies illustrated in the 2024-2027 industrial plan approved by the board of directors on January 25, 2024 which involve a series of actions aimed at maintaining the group in a balanced situation.

For the group, the 2024 financial year has still been an exercise in moving closer to the desired path of recovery in volumes and sales performance of products, especially those of the Moschino brand, in consideration of the difficulties that the reference market continues to present and the limited albeit positive effects, yet to be fully expressed, of the imprint of the new creative director, who has debuted with the "main autumn-winter 2024" collection in the February 2024 fashion show and who will curate his first complete collection dedicated to the "spring-summer 2025" season".

Already starting from 2025, with a consolidation trend projected for 2026 and 2027, a reversal of the trend is expected with a recovery in sales volumes of all the brands of the group, in particular that of the Moschino brand (both wholesale and retail), when all the collections presented will bear the imprint of the new creative director and when the conditions of the reference market should also become more favorable again.

Given the reduction in sales and turnover volumes, the Group since the first half of 2024, envisages various organizational efficiency and cost containment actions, in particular with regard to the provision of services (consultancy, stylistic and communication) and staff performance. These actions will allow, despite the contractions in turnover expected in 2024, to achieve during 2024 a partial recovery in margins compared to 2023.

The directors will continue to monitor the trend and evolution of the reference markets with extreme attention, with respect to the hypotheses and actions envisaged in the 2024-2027 industrial plan, while maintaining proactive and constant attention to organizational and management efficiency, to contain costs and identify initiatives that can further protect expected cash and income flows, also through any specific operations as the possible sale of key money relating to stores of primary standing no longer considered essential with respect to the new Group strategies.

Accounting standards, amendments and interpretations published by the IASB approved by the European Union but not yet adopted in the preparation of these financial statements:

- **amendments to IFRS16 Lease Liability in a Sale and Leaseback:** The document requires the seller-lessee to measure the lease liability arising from a sale and leaseback transaction so as not to recognise an income or loss that relates to the retained right of use. The amendments will apply from 1 January 2024, with early adoption permitted;
- **amendments to IAS 1 "Presentation of Financial Statements":** Classification of Liabilities as Current or Noncurrent". The document aims to clarify how to classify debts and other short-term or long-term liabilities. The changes come into force on 1 January 2023; however, early application is permitted.

The Directors do not expect a material effect on the Group's consolidated financial statements from the adoption of these amendments.

The Group signs forward currency derivative contracts (USD) at term (Forward) with primary credit institutions to cover the aforementioned risk. These contracts are set up to cover a specific percentage of expected purchase volumes in USD. At the balance sheet date, there are no forward currency contracts open (USD 5,500 thousand at 30/06/2022).

The composition of the derivative financial instruments in place at June 30, 2024 and December 31, 2023 is summarized below with an indication of the respective current and non-current accounting values referring to the fair value and fair value of the cash flow hedge reserve, this last shown net of the related deferred tax effect:

The differences reflected in this equity reserve are stated net of tax effect, as required by IFRS 1. Each difference was allocated on a pro rata basis to minority interests.

15. PROVISIONS

Provisions are illustrated in the following statement:

(Values in thousands of EUR)	At December 31,	Increases	Decreases	At June 30,
	2023			2024
Pensions and similar obligations	1,876	123	-	1,999
Other	304	-	(97)	207
Total	2,180	123	(97)	2,206

The supplementary clientele severance indemnity fund is determined based on an estimate of the liability relating to the severance of agency contracts, taking account of statutory provisions and any other relevant factor, such as statistical data, average duration of agency contracts and their rate of turnover. The item is calculated based on the actual value of the outflow necessary to extinguish the obligation.

The other provisions mainly relate to provisions for future charges and risks linked to organizational changes.

Potential tax liabilities for which no reserves have been established, since it is not considered probable that they will give rise to a liability for the Group, are described in the paragraph "Contingent liabilities".

16. POST-EMPLOYMENT BENEFITS

The severance indemnities payable on a deferred basis to all employees of the Group are deemed to represent a defined benefits plan (IAS 19), since the employer's obligation does not cease on payment of the contributions due on the remuneration paid, but continue until termination of the employment relationship.

For plans of this type, the standard requires the amount accrued to be projected forward in order to determine the amount that will be paid on the termination of employment, based on an actuarial valuation that takes account of employee turnover, likely future pay increases and any other applicable factors. This methodology does not apply to those employees whose severance indemnities are paid into approved supplementary pension funds which, in the circumstances, are deemed to represent defined contributions plans.

Changes in the provision are illustrated in the following statement:

(Values in thousands of EUR)	At December 31, 2023	Increases	Decreases/ Other variations	At June 30, 2024
Post employment benefits	3,206	43	(91)	3,158
Total	3,206	43	(91)	3,158

SEGMENT INFORMATION REGARDING PROFIT OR LOSS, ASSETS AND LIABILITIES

In order to apply the IFRS 8 the Group has considered to delineate as operative sectors the same used by IAS 14 Segment reporting: *Prêt-à porter* Division and footwear and leather goods Division. Such decision has been taken because they represent business activities from which the entity may earn revenues and incur expenses, whose operating result are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and for which discrete financial information is available.

Prêt-à porter Division, which is mainly represented by the company Aeffe, operating in the design, production and distribution of luxury prêt-à porter and lingerie, beachwear and loungewear collections.

In terms of prêt-à porter collections, the activity is carried out by Aeffe, both for the production of the Group's own-label brands ("Alberta Ferretti", "Philosophy di Lorenzo Serafini", "Moschino", "Boutique Moschino" and "Love Moschino") and brands licensed from other companies. Aeffe also handles the distribution of all Division products, which takes place via the Retail channel through subsidiaries and via the Wholesale channel.

Furthermore Aeffe manufactures and distributes lingerie and swimwear collections, and specifically men's/women's lingerie, underwear, beachwear and loungewear. Collections are produced and distributed under the Group's own-label brands such as "Moschino", and under third-party licensed brands.

The Prêt-a-porter Division also manages licensing agreements granted to other companies to manufacture Aeffe and Moschino branded product lines such as the "Moschino" brand licensing agreement relating to the *Love* line, "Moschino" branded perfumes and sunglasses.

The footwear and leather goods Division, which is composed of Pollini and its subsidiaries, mainly handles the design, production and distribution of footwear, small leather goods, bags and matching accessories made from exclusive materials. The operating activity is mainly carried out by Pollini, which directly handles the design, production and distribution of own-label products, as well as the production and distribution of brands licensed by Group companies.

The footwear and leather goods division also manages licensing agreements granted to other companies to manufacture "Pollini" products such as umbrellas, foulards and ties.

COMMENTS ON THE CONSOLIDATED INCOME STATEMENT

23. REVENUES FROM SALES AND SERVICES

Accounting Policy:

Revenues from sales and services derive mainly from the sale of goods with the recognition of "at point in time" revenues when the asset was transferred to the customer. This is provided for both the Wholesale distribution (shipment of goods to the customer, and for retail distribution when the asset is sold through a physical store. With regard to the export of goods, the control can be transferred in various stages depending on the type of product). Incoterm applied to the specific customer. This premise leads to a limited judgment on the identification of the control passage of the asset and the consequent recognition of the revenue.

A part of the group's revenues derives from the recognition of the Royalties, agreed, based on a predetermined percentage in the contract with the customer, on the net turnover. The royalties accrue "at point in time", therefore at the time of issue by the Licensee, of the invoices for the sale of the products granted.

Determination of the transaction price:

Most of the Group's revenues derive from list prices that can vary depending on the type of product, brand and geographical region. Some contracts with the Group's Retail Companies provide for the transfer of control with the right of return. Being intra-group transactions they do not impact the consolidated financial statements as they are eliminated.

With regard to the recognition of Royalties, these are calculated based on a percentage of the Licensee's net sales. The percentage may vary depending on the type of product.

Bank interest expenses	4,474	3,033	1,441	47.5%
Other interest expenses	343	218	125	57.3%

Total	6,545	4,906	1,639	33.4%

The total entry financial income/expenses increases of EUR 1,639 thousand mainly due to higher interests expenses generated by the rise in interest rates.

32. INCOME TAXES

This item includes:

(Values in thousands of EUR)	1 st Half	1 st Half	Change	%
	2024	2023		
Current income taxes	746	1,856	(1,110)	(59.8%)
Deferred income/(expenses) taxes	(2,945)	(2,421)	(524)	21.6%
Taxes related to previous years	(6)	(610)	604	(99.0%)
Total income taxes	(2,205)	(1,175)	(1,030)	87.7%

Details of deferred tax assets and liabilities and changes in this item are described in the paragraph on deferred tax assets and liabilities.

The reconciliation between actual and theoretical taxation for the 1H 2024 and 1H 2023 is illustrated in the following table:

(Values in thousands of EUR)	1 st Half	1 st Half
	2024	2023
Profit before taxes	(22,349)	(12,776)
Theoretical tax rate	24.0%	24.0%
Theoretical income taxes (IRES)	(5,364)	(3,066)
Fiscal effect	307	(467)
Effect of foreign tax rates	2,710	2,391
Total income taxes excluding IRAP (current and deferred)	(2,347)	(1,142)
IRAP (current and deferred)	142	(33)
Total income taxes (current and deferred)	(2,205)	(1,175)

This reconciliation of the theoretical and effective tax rates does not take account of IRAP, given that it does not use profit before taxes to calculate the taxable amount. Accordingly, the inclusion of IRAP in the reconciliation would generate distorting effects between years.

Report on review of the half-yearly condensed consolidated financial statements

*To the Shareholders of
Aeffe S.p.A.*

Introduction

We have reviewed the accompanying half-yearly condensed consolidated financial statements as of June 30, 2024, consisting of the consolidated statement of financial position, consolidated income statement, statement of comprehensive income, consolidated statement of cash flows, statement of changes in equity and related explanatory notes, of the Aeffe Group. The Directors are responsible for the preparation of the half-yearly condensed consolidated financial statements in accordance with the International Financial Accounting Standards applicable to interim financial reporting (IAS 34) as adopted by the European Union. Our responsibility is to express a conclusion on the half-yearly condensed consolidated financial statements based on our review.

Scope of Review

We conducted our review in accordance with review standard recommended by Consob (the Italian Stock Exchange Regulatory Agency) in its Resolution no. 10867 of July 31, 1997. A review of the half-yearly financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (ISA Italia) and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on the half-yearly condensed consolidated financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying half-yearly condensed consolidated financial statements of the Aeffe Group as of June 30, 2024, are not prepared, in all material respects, in accordance with the International Financial Accounting Standards applicable to interim financial reporting (IAS 34) as adopted by the European Union.

Emphasis of matter

We draw attention to the paragraph "Directors' assessment of the going concern assumption" in the notes to the half-yearly condensed consolidated financial statements, where the Directors explain the reasons for which, despite the largely negative results achieved by the Aeffe Group in the first half 2024, they considered appropriate use the assumption of business going concern in the preparation of the half-yearly condensed consolidated financial statements as of 30 June 2024. In particular, the Board shall highlight the following. "Starting from these results, the Directors have prepared the financial statements as at June 30, 2024 according to the principle of business continuity considering the uncertainties linked to the reference market and macroeconomic situation and on the basis of the strategies illustrated in the 2024-2027 industrial plan approved by the board of directors on January 25, 2024 which involve a series of actions aimed at maintaining the group in a balanced situation. For the group, the 2024 financial year has still been an exercise in moving closer to the desired path of recovery in volumes and sales performance of products, especially those of the Moschino brand, in consideration of the difficulties that the reference market continues to present and the limited albeit positive effects, yet to be fully expressed, of the imprint of the new creative director, who has debuted with the "main

autumn-winter 2024" collection in the February 2024 fashion show and who will curate his first complete collection dedicated to the "spring-summer 2025" season ". Already starting from 2025, with a consolidation trend projected for 2026 and 2027, a reversal of the trend is expected with a recovery in sales volumes of all the brands of the group, in particular that of the Moschino brand (both wholesale and retail), when all the collections presented will bear the imprint of the new creative director and when the conditions of the reference market should also become more favorable again. Given the reduction in sales and turnover volumes, the Group since the first half of 2024, envisages various organizational efficiency and cost containment actions, in particular with regard to the provision of services (consultancy, stylistic and communication) and staff performance. These actions will allow, despite the contractions in turnover expected in 2024, to achieve during 2024 a partial recovery in margins compared to 2023. The directors will continue to monitor the trend and evolution of the reference markets with extreme attention, with respect to the hypotheses and actions envisaged in the 2024-2027 industrial plan, while maintaining proactive and constant attention to organizational and management efficiency, to contain costs and identify initiatives that can further protect expected cash and income flows, also through any specific operations as the possible sale of key money relating to stores of primary standing no longer considered essential with respect to the new Group strategies".

Our opinion is not modified in respect of this matter.
